

# 5G Academy

Future Interactive immersive Efficient Green technologies Academy

IV Edition, 2023

**BECOME PART OF THE EMERGING DIGITAL TRANSFORMATION WORKFORCE**

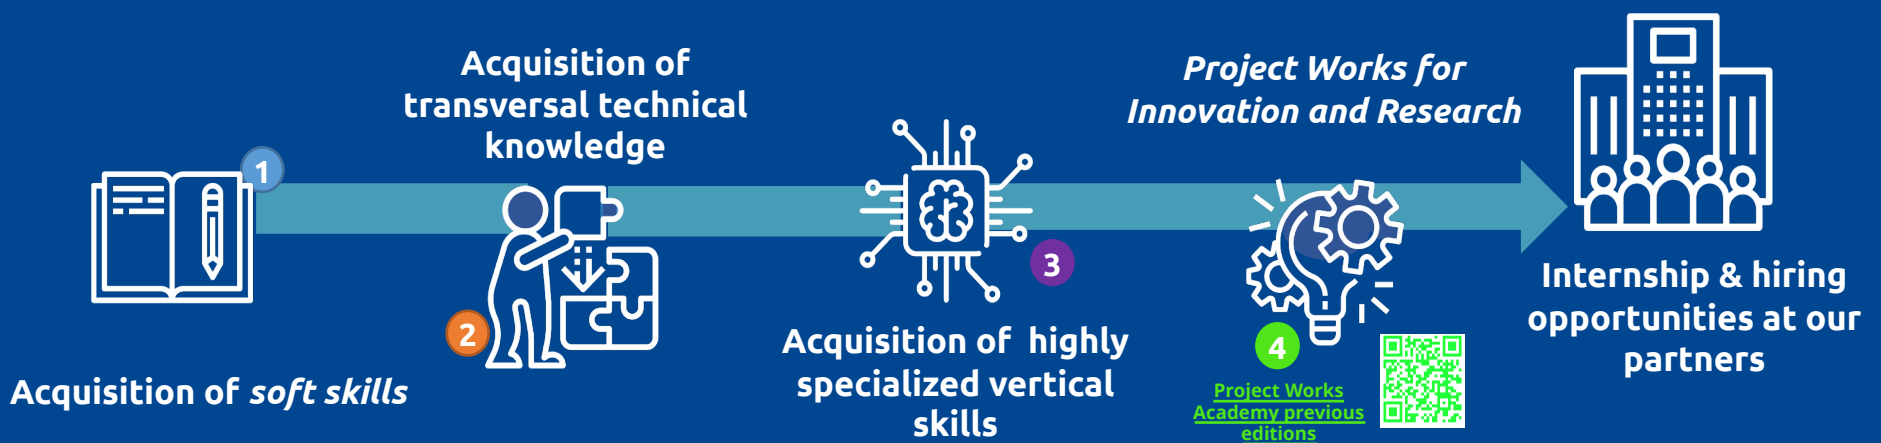

For students with a scientific-technological background, but also young economists, lawyers, philosophers, sociologists, etc., passionate about emerging technologies

The combination of scientific and humanistic competencies empower students with with the skills, mindset, and technologies to change the world.

**THIS YEAR, SPECIAL ATTENTION TO INCLUSIVENESS: FOR DETAILS, DOWNLOAD THE [CALL FOR APPLICATION](#)**

## ACADEMY STRUCTURE

«The increasingly transversal nature of our future society is at the core of the 5G academy training program.»

*This is how the workforce of the future is formed»*

[Paolo Conti, Corriere della Sera]
